Hi Sandy. I am not aware at the moment of additional funds being made available under the Regional Geographic Initiative, the funding mechanism under which ANJEC obtained the Cooperative Agreement. I will pass your email on to my Office of Policy & Management counterparts in the event that they know of potential funding sources. Keep up the good work on Passaic.....

p.s. - I plan on attending the May 4 workshop

Subject EPA Grant on the Passaic

Dave,  
We are making great progress with the Passaic River grant. The workshops are scheduled, the displays have been designed and duplicated, and the website is constructed.  
I was wondering if there is any possibility of a small amount of funding to continue the progress of this grant next year. It would go mostly for website updates and perhaps some continued follow-up education. I know that the HEP CAC is developing its budget for the coming year. Any possibility of funds from that?  
Thanks  
Sandy Batty
